

After

Having dedicated sections for users to read the newest highlights of business sections, spotlighting every publication of the newest articles are placed as well - better readability for readers

Divided the articles into specific sections in each category for the readers to choose articles with much more organized with list of articles next to highlights of other items from different sections as well - better readability for readers

For the Politics Section, I decided to put the two of the newest articles in the large container size and then other following articles in small containers sections in articles last 10, which gives more impact of 2, 4, 6, 8, 10

To give variety of style into the page, I decided to put one article as an highlight and add other articles in the side, which was mainly using color contrast and service for the New York Times & The New York Times

For the education, there wasn't much highlight in other two sections as this category doesn't get published as often as the other articles. However, it is still used by many and attracts tremendous attention, I decided to make the right of the Politics section, but as a article layout. As the Sports section occupies too much space in the middle between the Politics and Education, being Education and Education image later would make layout with page size

Before

Having more than 100 articles in the page, it was hard to find the article we wanted to read. I decided to put one article as an highlight and add other articles in the side, which was mainly using color contrast and service for the New York Times & The New York Times

For every redesigned section, I decided to add the navigation articles, so that readers can read the latest articles with ease

I have divided the sections into three: TV, Music, Culture, Technology, Sports, News, Games, and Literature. There were several of sections, but we divided into each section, which would make it easier to go through the website to find their favorite category articles

For the Music & TV section, similar to what have done with the Politics section, I chose 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58,
